

用途

I 電子照射*PVC電線

家電器具內部配線及外部連接線

- 吹風機
- 電腦
- 商業儀器配線
- 儀側及控制系統
- 使用於高機械強度，耐熱性
- 及耐化學之通性、信號系統中
- 電話系統中之配線架用線
- 耐油性用線

II 電子照射*PE電線

使用溫度部超過125°C之家電器具
內部配線及外部連接線

- 吹風機
- 汽車電子用線
- 咖啡爐
- 線圈引線
- 微波電烤箱
- 馬達
- 消防用警報系統
- LCD背光板
- 變壓器及馬達引出線

*: PVC及PE材料使用
無鉛原料產品符合
RoHS環保需求

Applications

I Irradiated XL*PVC Hook-up wires internal wiring of appliances

- Hair dryers
- Computer wiring
- Business machines
- Instrumentation and control system
- Communication, signal applications where a high degree of mechanical strength and resistance to heat and chemicals is required
- Distributing frame wire in telephone system
- Oil resistant applications

*: PVC and PE compound use Lead free material.
Comply with RoHS requirement.

II Irradiated XL*PE Hook-up wires

For internal wiring of appliances whose operating temperature does not exceed 125°C

- Hair dryers
- Coffee markers
- Microwave ovens
- Small motors
- For wiring of transformers and motor leads
- Automotive electronic applications
- Coil lead wire
- Nuclear plant control cables
- Firling alarm systm
- LCD monitor
